TRANSMITTAL OF OPERABLE UNIT 4 PHASE I INTERIM MEASURE/INTERIM REMEDIAL ACTION DECISION DOCUMENT - SRK-020-95

Action: Process Transmittal to the Agencies

In accordance with the Rocky Flats Interagency Agreement (IAG) signed by the U. S. Department of Energy (DOE), U. S. Environmental Protection Agency (EPA), and Colorado Department of Public Health and Environment (CDPHE) on January 22, 1991, EG&G Rocky Flats, Inc. (EG&G), is hereby transmitting two copies of the Operable Unit 4 (OU 4) Phase I Proposed Interim Measure/Interim Remedial Action (IM/IRA) Decision Document (DD) to DOE. The IM/IRA DD also contains the OU 4 Phase I Resource Conservation Recovery Act (RCRA) Facility Investigation/Remedial Investigation (RFI/RI) report, forty percent (40%) conceptual design plan for the "selected alternative," and the OU 4 Post Closure Monitoring Plan.

As we discussed with your staff, EG&G will plan on delivering copies of the referenced document to EPA and CDPHE, the DOE Reading Rooms and other individuals/entities as required upon receipt of your transmittal letter to the regulatory agencies. A draft transmittal letter is enclosed for your convenience.

If you have any questions or concerns regarding this IAG deliverable, please contact me at extension 8541 or Andy Ledford at extension 8673.

Subject: TRANSMITTAL OF OPERABLE UNIT 4 DECISION DOCUMENT

Accompanying this transmittal letter is the Proposed Interim Measure/Interim Remedial Action/Environmental Assessment Decision Document for Phase I remediation of the Solar Evaporation Ponds, Operable Unit 4 (OU 4). This revision incorporates all the Joint Working Group Decisions and Round Table Review comments, which were part of the streamlined approach agreed to in the September, 1993 OU 4 dispute resolution and the formal comments from the draft decision document.

The document includes an important scope change, the disposition of pond sludge, pondcrete and associated remediation debris under the engineered barrier.

As communicated in previous correspondence, DOE has proposed the scope change to the Decision Document to result in an improved remedy by incorporating pondsludge and pondcrete wastes into the construction. DOE feels the proposed scope-change will produce a superior remedy.

DOE looks forward to meeting with you to discuss your comments to the proposed Decision Document. Please contact Frazer Lockhart, 966-4538, for further discussion.

Sincerely,

Mark N. Silverman
Manager
DOE/RFFO
